

# Alnagom Wep Markiting

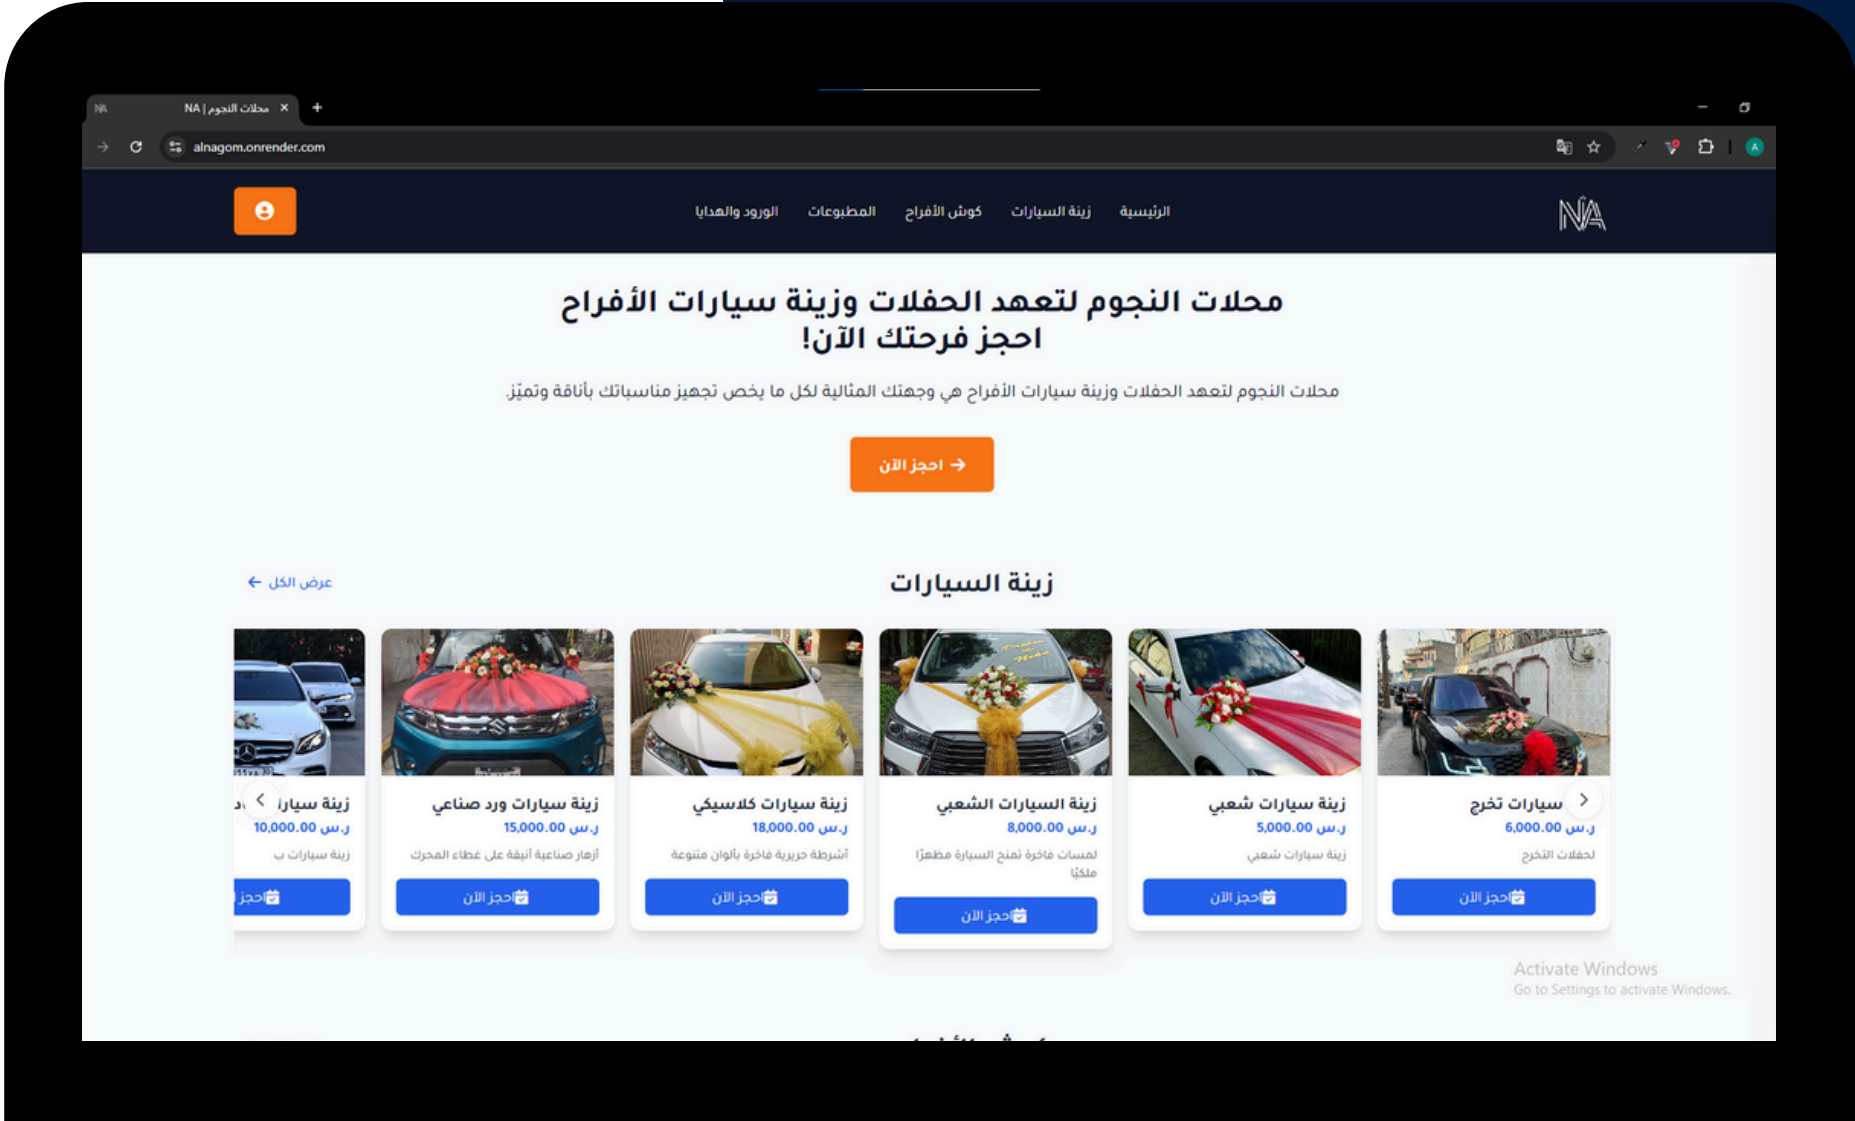

A website to showcase the products of Al-Nojoom Car Accessories and Event Services. The website was created to facilitate customer bookings and organize them, which helps improve productivity and customer service.

# About Digital Marketing

A dedicated platform offering wedding car decoration, event staging, custom print items, and flower & gift arrangements. The website showcases a variety of products such as graduation car décor, classical decorations, engagement stages (koush), personalized prints (on t-shirts, photos, cups), and elegant floral and gift packages. It enables customers to easily browse and book services—enhancing productivity and customer satisfaction. Established in 2020, Al-Nojoom Events & Car Décor is your go-to destination for stylish and memorable event preparations.

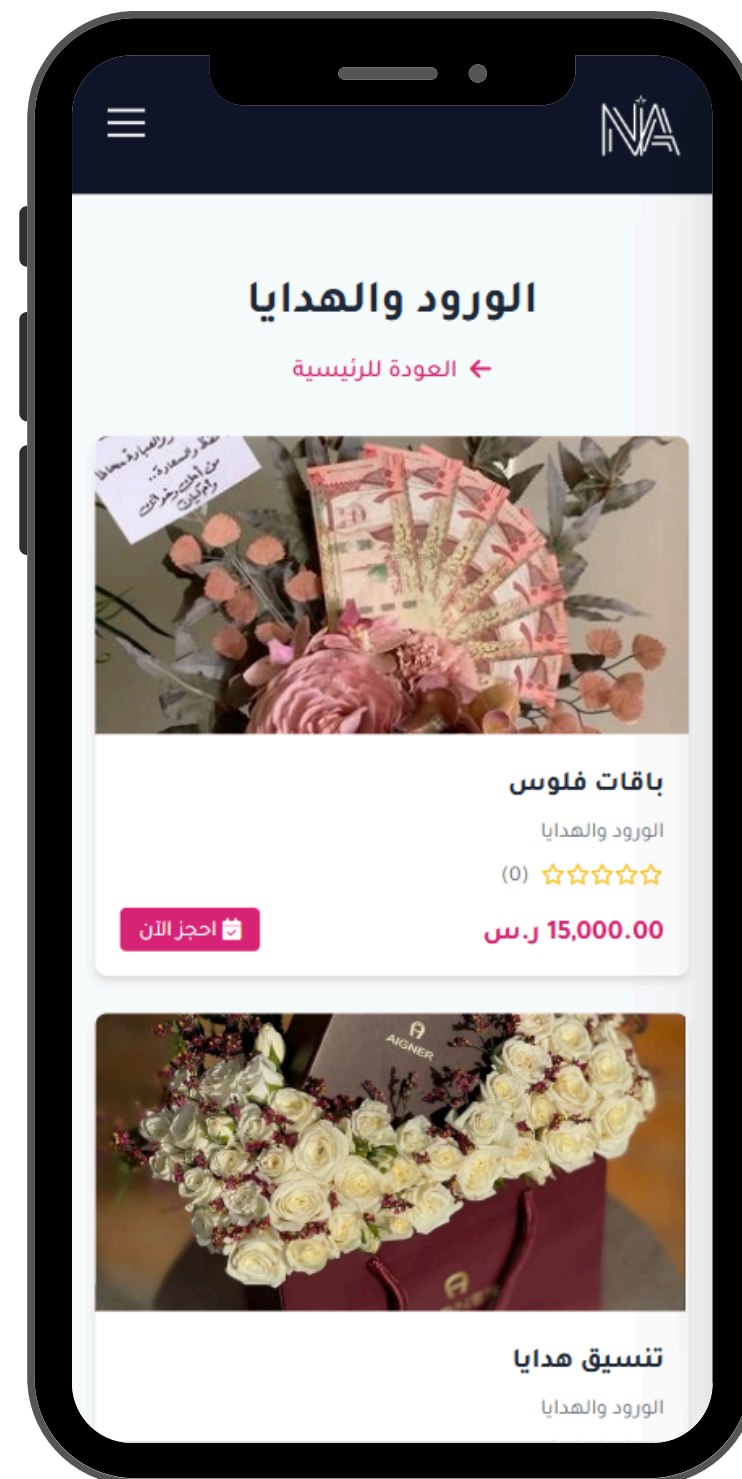

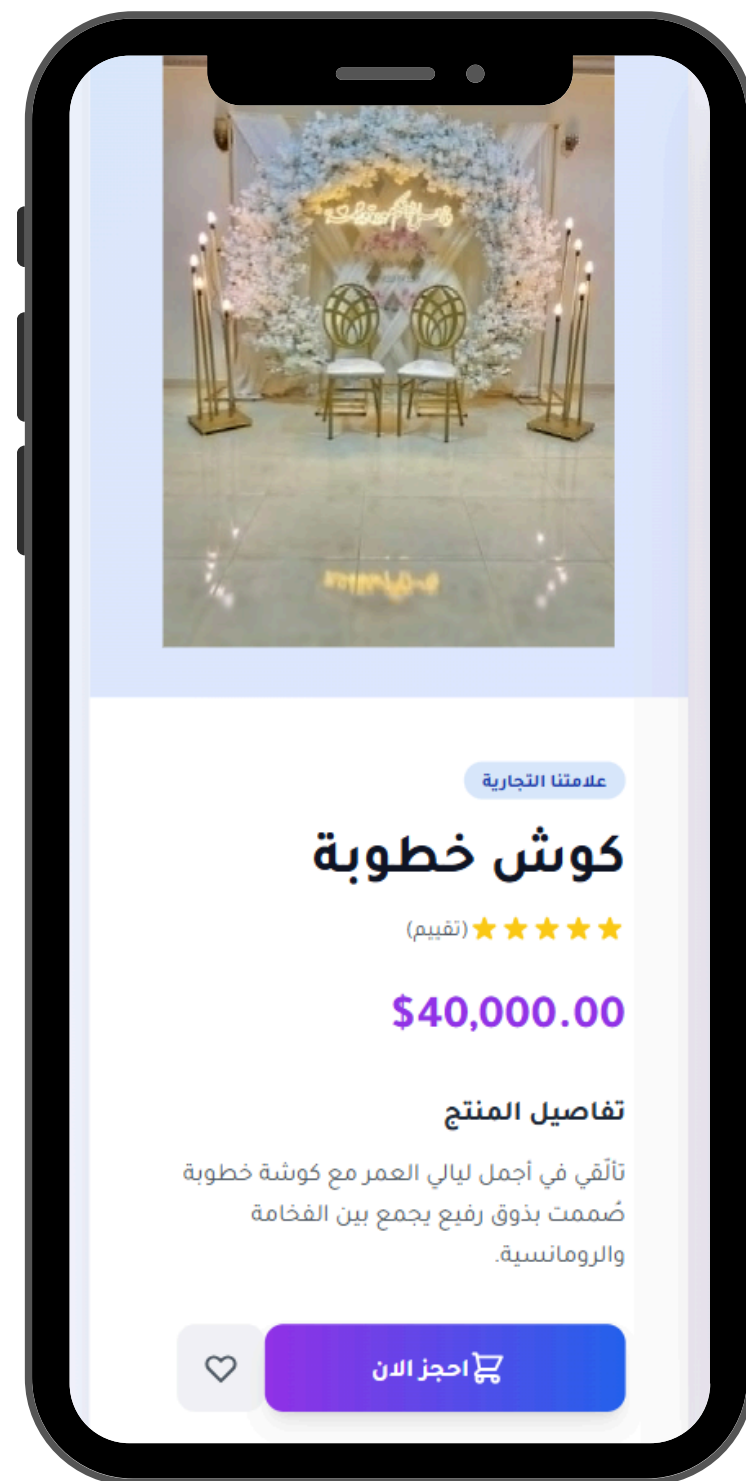

# Tools & Technologies

- 01 • Backend Framework: Laravel 12
- 02 • Frontend Templating: Laravel Blade
- 03 • Admin Panel: Filament Admin (fully customized for content and booking management)

# Some Pages

# Thank You Let's Work Together

If you're looking for a dedicated Laravel developer who builds clean, scalable, and efficient web applications — I'd love to connect!
